

THE LEADER IN U.S. CRUISING

Cruise Close To Home® with American Cruise Lines, the leader in U.S. River & Coastal cruising and the largest domestic cruise line in the country. The company offers a fleet of 24 new riverboats and small cruise ships, each accommodating just 90 to 180 guests. American is the only cruise line in the world with a fleet of 100% U.S. built & flagged riverboats and small cruise ships. This distinction enables the company to exclusively offer all-domestic cruises that visit only U.S. ports of call, along both U.S. rivers and coasts. The Line features over 50 itineraries, which range from 6 to 51 Days in length, and explore in 35 U.S. states. American’s small ships cruise along protected U.S. waterways from Alaska to Florida, and major U.S. rivers, including the Mississippi River (Ohio, Cumberland, and Tennessee Rivers); the Columbia and Snake Rivers; the Hudson River; and Florida Rivers (St. John’s and Tolomato). American Cruise Lines has over 50 years of experience cruising the U.S., and specializes in authentic American experiences, personalized service, and well-curated destination-focused cruises. Year after year, the company continues to be the most awarded U.S. cruise line, winning accolades from: *Condé Nast Traveler*, *U.S.A. Today*, *U.S. News & World Report*, *Travel & Leisure*, and countless industry publications.

AMERICAN’S FLEET ★ 24 SMALL SHIPS

American Cruise Lines operates the newest fleet of small ships, including a new class of *Coastal Cats*, classic *Paddlewheelers*, and the only modern *American Riverboats* in the country. The company is the gold standard for cruising in the U.S., introducing new innovative ships each year and offering the most diverse selection of small ships in the country.

THE NEW CLASS OF MODERN RIVERBOATS

American Cruise Lines is proud to offer brand new *American Riverboats* – the first modern riverboats available in the U.S. These new riverboats are technically advanced, possess the newest safety and navigation equipment, and are the most environmentally friendly small ships on U.S. rivers. They meet the highest emissions standards, have tiny carbon footprints, and showcase sophisticated interior design.

American’s elegant new riverboats accommodate fewer than 180 guests and possess a unique (patent-pending) opening bow and retractable gangway, which enables them to make bow landings wherever necessary. The riverboats feature soaring multi-story glass atriums, spacious standard cabins, enormous suites, and large single cabins—all with private furnished balconies. They also offer comfortable lounges, gorgeous sun decks, walking tracks, grand dining rooms, and smaller casual cafés. Designed with 3 times the glass of other U.S. riverboats, American’s newest riverboats offer spectacular views from everywhere on the ship.

American’s modern riverboats add a new dimension to U.S. river cruising—providing an exciting new alternative to the classic paddlewheeler riverboats and coastal cruise ships in the company’s fleet.

American’s Modern Riverboats: *American Encore* is the next new riverboat in the series – coming in 2026. *American Song* (2018), *American Harmony* (2019), *American Jazz* (2020), *American Melody* (2021), *American Symphony* (2022), and *American Serenade* (2023) – named *Cruise Critic’s The Best New River Cruise Ship 2023*

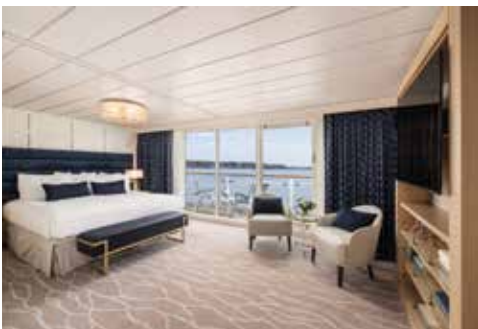

INTRODUCING PROJECT BLUE: 12 NEW SMALL SHIPS FOR EXPLORING THE U.S.A.

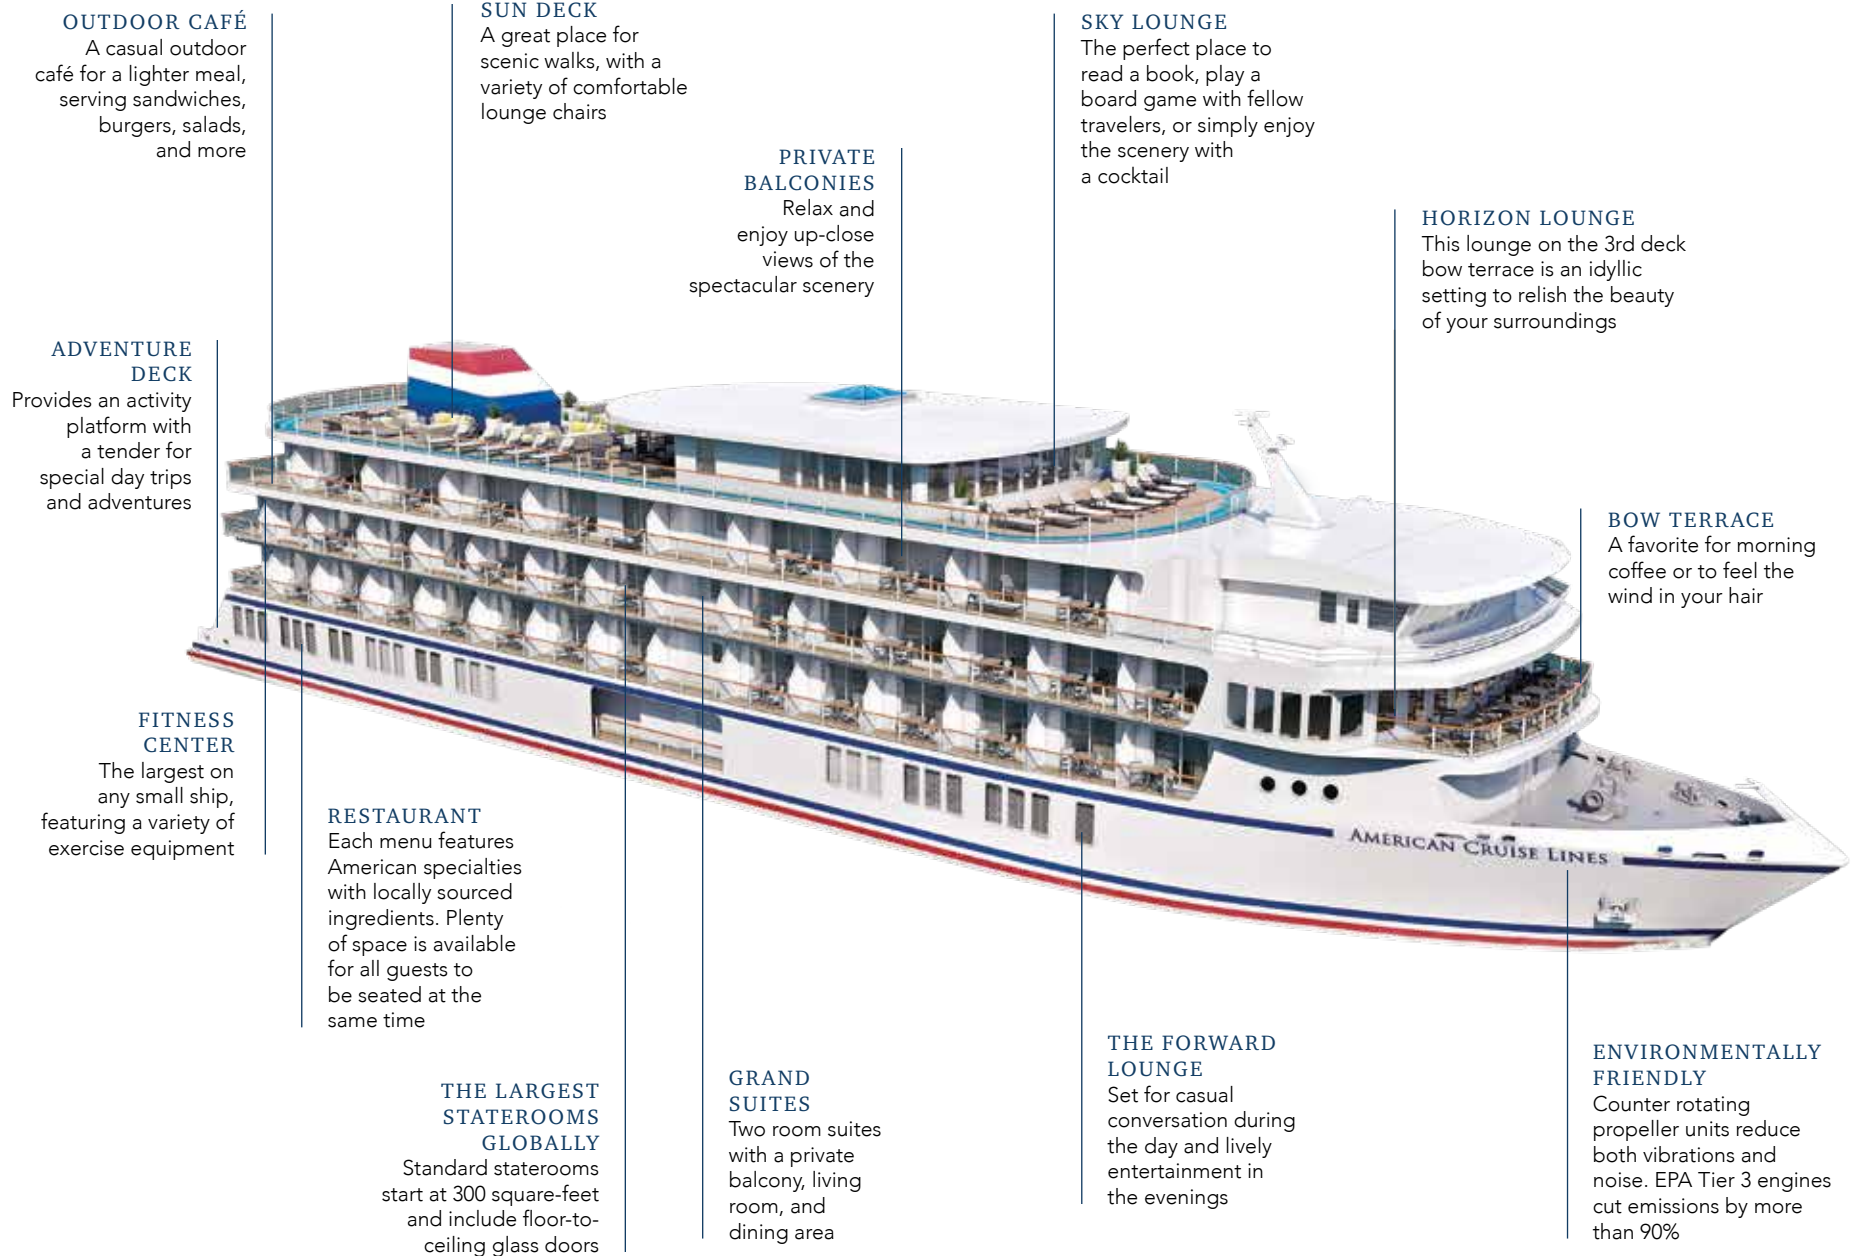

First announced in early 2022, *Project Blue* is a new series of 12 small ships for the U.S. River cruise market. These new ships perfect American Cruise Lines' commitment to explore the U.S.A. and reflect the uniqueness of the company's growing fleet—the only fleet of 100% U.S. flagged small ships in the world. Each new ship in the series accommodates a small number of guests, and offers extraordinary onboard spaces, including spacious private balcony accommodations.

The *Project Blue* ships, both *Coastal Cats* and *Patriot Class* ships provide the luxury of river cruising with the access and expanded itinerary options of expedition cruising. The fleet allows the company to continue adding new cruises all over the U.S.A., inspiring itineraries that are sailed along protected coastal waters, just like river cruises. All the *Project Blue* ships feature state-of-the-art design and environmentally friendly technology, and have excellent operating ability, for superior coastwise access and smooth sailing.

The first four ships in the *Project Blue* series are 100-passenger *Coastal Cats*, sister ships: *American Eagle* and *American Glory* 2023; and *American Liberty* and *American Legend* 2024. The 5th, 6th, 7th and 8th ships in the series will be four *Patriot Class* sister ships. **American Patriot** and **American Pioneer** arrive in 2025; **American Maverick** and **American Ranger** arrive in 2026. Each of the new *Patriot Class* ships will accommodate 130 guests, slightly more than the *Coastal Cats*, and each will feature a traditional hull design, with uniform bow and deeper draft. American's *Project Blue* fleet is ongoing, and represents the largest order of U.S.-built cruise ships in decades.
