THE NEW CLASS OF AMERICAN RIVERBOATS

American Cruise Lines is proud to introduce its revolutionary American Riverboat Series—the first contemporary-style riverboats available in the U.S. These new riverboats are technically advanced, possess the newest safety and navigation equipment, and are the most environmentally friendly small ships on U.S. rivers. American’s modern riverboats meet the highest emissions standards, have tiny carbon footprints, and showcase sophisticated interior design.

All American’s modern riverboats accommodate fewer than 180 guests and possess a unique (patent-pending) opening bow and retractable gangway, which enables them to make bow landings wherever necessary. The riverboats feature soaring multi-story glass atriums, huge standard cabins, enormous suites, and spacious single cabins—all with private furnished balconies. They also offer comfortable lounges, gorgeous sun decks, grand dining rooms, and smaller casual cafés. Designed with 3 times the glass of other U.S. riverboats, American’s modern riverboats offer spectacular views from everywhere on the ship.

American’s modern riverboats add a new dimension to U.S. river cruising—providing an exciting new alternative to the beautiful paddlewheelers and coastal cruise ships already in the company’s fleet.

American’s Modern Riverboats: *American Song* (2018), *American Harmony* (2019), *American Jazz* (2020), *American Melody* (2021), *American Symphony* (2022), and *American Serenade* (2023).
